Presents

**ET/Star People CONTACT
INSTRUCTIONS**

More Info: ETLetsTalk.com/gce5

1. **Do** this ET Contact any time, anywhere that is convenient, comfortable and safe for you.
2. **Choose** the place and the people you believe are compatible, respectful, and enthusiastic about this coordinated effort. You may also do this alone. If you have an attitude of fear, deep skepticism, hostility, close-mindedness...chances are you will likely fail at making contact. Bring your goodwill, love, joy and openness to the experience. The Star People will detect your noble positive vibrations.
3. **Include** whatever energetic 'protection' you desire. Link heart-to-heart with members in your group. Circulate the love energy.
4. **Visualize** a magnetic pink sphere of love at the center of your circle with each of your hearts connected to it. Project this column of love energy high up into the sky as a brilliant vibrant beacon to our Star Friends.

5. **Link up** heart-to-heart in your imagination with all of the other “Global CE-5 ET Contact” groups who are joining in all over the planet. Then with love also include our Star Friends as you invite them and guide them to your location. You can guide them by projecting your consciousness out to them and visualizing how to travel from the location of our sun in our solar system to our Earth. As you approach it in your imagination, zoom in closer and closer to your specific location on the surface. Show them the images of where to find you!

6. **ASK** our ET friends mentally and with your heart what you and we can do in cooperation with them to bring about a healing for our planet Earth. Invite them to take more of a part in our Human affairs, recognizing that it is nonetheless Humanity’s responsibility to solve its problems.

7. **Remember** that ET Contact can come in many forms. It may be a sighting of a Star Craft, a lucid dream, a telepathic message, a touch on the shoulder or knee, weird electrical phenomenon with communication devices or lights, and so much more. Our Star Friends are very creative and will only communicate when it is safe for them and you.

NOTE:

This is a free global ‘virtual’ event you can do daily, weekly, and monthly or whenever you wish! You use your imagination to link up with our thousands of Global ET

Contact teams. They began making ET Contact in 2010!

You can do this anytime, anywhere that is safe and comfortable.

The goal is to create a unified group field which welcomes our Star Friends to connect and interact with us.
